Career Objective

Motivated and enthusiastic Computer Science Engineering (AI & ML) student seeking opportunities to apply technical skills in software development, machine learning, and data analytics to solve real-world problems and gain practical industry experience.

Education

B.Tech in Computer Science and Engineering (AIML) — *Narayana Engineering College, Gudur*
3rd Year

Intermediate — *Pragna Junior College, Gudur*
Percentage: 89%

SSC — *ZPGH Government School*
Percentage: 77.17%

Technical Skills

- **Programming Languages:** Python, Java, C
- **Machine Learning & Data Analysis:** Machine Learning, Data Analysis, Pandas, NumPy, Scikit-Learn
- **Web & Tools:** Flask, GitHub, MS Office

Projects

1. Hangman Game

- Developed an interactive Hangman game using Python.
- Implemented multiple categories such as Fruits, Animals, Countries, and Programming Languages.
- Enhanced user experience with score tracking and hints.

2. Car Price Prediction

- Developed a machine learning model to predict car prices based on vehicle features.
- Performed data preprocessing, feature selection, and model evaluation.
- Applied regression techniques using Python and Scikit-Learn.

3. Iris Flower Classification

- Built a machine learning model to classify Iris flower species using Scikit-Learn.

4. Unemployment Analysis

- Performed Exploratory Data Analysis (EDA) using Pandas, NumPy, Matplotlib, and Seaborn to analyze unemployment trends.

5. Personal Portfolio Website

- Developed a responsive portfolio website showcasing education, skills, and achievements.

6. Tree Plantation Awareness Project

- Promoted environmental sustainability through awareness and research activities.

Achievements & Activities

- ---

State Level Karate Player
- Active Participant in Hackathons and Technical Events
